

Morning Starters: Autumn 1 - Plant Parts

Word Challenge

Write a list of words that rhyme with the word 'flower'.

Example:

tower, sour, ...

Grammar Challenge

Click text to edit 

Write a descriptive sentence that includes the following words:

- 1) bat's
- 2) pollen
- 3) silently

Example: The bat's wings fluttered silently as it carried pollen from one flower to the next under the cover of night.

Did You Know?

Plants need to be pollinated for new seeds to develop. Many plants have colourful, sweet-smelling flowers that attract pollinating creatures like bees and butterflies. In Costa Rica, the fascinating seven-hour flower opens only at night. It does so in order to attract bats. While enjoying a feast of nectar, the bats carry pollen from flower to flower, helping the plant's goal of growing new seeds.

Where in the world is Costa Rica? Click the
