

## Morning Starters: Autumn 1 - Teamwork

### Word Challenge

**Write the antonym of each underlined word.**

**Help:** An antonym is a word that has the opposite meaning of another word like 'hot' and 'cold'.

### Did You Know?

Off the coast of South Africa, fur seals have learned that it is better to work as a team than to go it alone. Working together, they are able to fend off the ocean's most feared predator – a great white shark. As more seals join the chase, the braver they become! Working and playing together is a common theme in the natural world, where safety in numbers can ensure the survival of a species.

### Grammar Challenge

Click text to edit 

**Write a sentence about brave fur seals that starts in the following way.**

Despite the looming threat of the monstrous shark, ...

### Number Challenge

**Fact:** A great white shark can get through 30,000 teeth in its lifetime!

**Use your knowledge of the 3 times table to write the 30,000 time table.**

**Example:**

$$30,000 \times 1 = 30,000$$

$$30,000 \times 2 = 60,000$$

### Critical Thinking

**Are you more likely to take risks when you work as a team or when you work alone? Why do you think this?**
