Rewrite the sentence below making sure that all of the proper nouns start with a capital letter.

The sami people are a group of people who live north of the arctic circle, including parts of norway, sweden, finland, and russia.

Did You Know?

The Sami people have lived in the Arctic for thousands of years. They inhabit the northern regions of Norway, Finland, Sweden and parts of Russia. They have a unique bond with their reindeer, which provide them with food, clothing, and transport. The Sami must guide their herds to the best grazing areas, but modern obstacles like roads, towns, and wind farms can block their way. Reindeer are not just essential for Sami survival—they are symbols of their ancient traditions and way of life.
