Write a sentence that includes 3 actions performed by a grey squirrel.

Example: The grey squirrel scurried along the fence, paused to twitch its bushy tail and nibbled on a stolen acorn.

Did You Know?

Grey squirrels are masters of deception when it comes to food. These mischievous mammals often steal nuts from others, but some squirrels have grown wise to their tricks. To confuse thieves, they pretend to bury their stash in one spot, only to secretly hide it elsewhere. Their clever strategies for survival prove they're not just cheeky but also remarkably resourceful!

Number Challenge

Greyson, the grey squirrel, lost 25% of his buried nuts to another squirrel.

If he lost 237 nuts, how many did he bury in total?

Critical Thinking

If a grey squirrel could talk, what do you think it would say about the human race?
