“Here, just take this and drop the phone! Fair trade, right?” shouted the anxious tourist as ...

Did You Know?

In Bali, Indonesia, a clever group of monkeys has turned mischief into a game! These cheeky macaques live near ancient temples and love to snatch things, like mobile phones and sunglasses, from surprised visitors. But don’t worry – they’re willing to trade! If you offer them food, especially chocolate bars, they might give your things back. It’s a funny and exciting exchange that keeps tourists on their toes!

Where in the world is Bali? Click the

Number Challenge

Fact: There are 23 species of macaques, which live in areas of Asia, North Africa and Europe.

23 appears in the following prime number sequence:

2, 3, 5, 7, 13, 11, 17, 19, 23

Calculate the sum total of the first 10 numbers in the prime number sequence.

Critical Thinking

If you were in charge of the Bali temples, would you try to stop the monkeys from stealing from the tourists? Why? Why not?
