Copy and complete the following sentence.

With _____, the ravenous polar bear bounded through the snowy wilderness.

Example: With eyes fixed on its prey, the ravenous polar bear bounded across the snowy wilderness.

Did You Know?

As ice-free periods become longer in the Arctic due to climate change, it is becoming increasingly difficult for polar bears to catch seals from their traditional sea-ice platforms. This has forced the mighty carnivores inland, where they stalk and chase animals such as reindeer. However, polar bears are heavy and not built for speed. Chasing reindeer requires incredible resilience and determination with the vast majority of hunts ending in failure.
