Copy and complete the sentences below with the spoken words of the mother orangutan.

“Keep up!” encouraged the gentle mother. “We are ...

Did You Know?

On the islands of Borneo and Sumatra, orangutan mothers care for their babies for up to eight years, making it the longest parent-child bond in the animal kingdom after humans. During this time, the young orangutans learn important skills like climbing, finding food and building nests. This long period of learning helps them grow strong and prepares them to live on their own in the wild.
