Write a descriptive sentence about a harp seal pup that starts in the following way:

Coated in soft white fur, ...

Example:

Coated in soft white fur, the pup waited patiently on the icy platform, awaiting its mother's return.

Did You Know?

Harp seal mothers provide their pups with a supercharged start in life through their nutrient-packed milk. With ten times more fat than human milk, it helps seal pups gain weight rapidly, doubling their size in just a few days. This is crucial in the icy Arctic environment, where a thick layer of blubber is necessary to keep them warm and protected from the cold.

Where in the world is the Arctic Click the

Number Challenge

Fact: Harp seal milk is 50% fat. That's 10 times more fat than cow's milk!

Supersize the following numbers, multiplying each one by 10:

- 1) 120
- 2) 2,381
- 3) 0.5
- 4) 2.06

Critical Thinking

Should parents treat all their children exactly the same? Why or why not?
