

# Class Ecosystem

## Learning Objectives:

- To understand that we all have important roles to play in creating a healthy class ecosystem, where everyone can achieve their best
- To understand that we are all interconnected in our class ecosystem and that our actions affect others in both positive and negative ways

### DO

(Things that will help create a healthy class ecosystem, where everyone can achieve their best.)

### AVOID

(Things that could lead to an unhealthy class ecosystem, where it is difficult to achieve your best.)
